

Approved by WHA BOD June 2024

WOODSVIEW HOMEOWNERS ASSOCIATION, INC.

RULES AND REGULATIONS

(Pursuant to Section 5.11 of the By-Laws)

The rules and regulations have been enacted to allow all homeowners the ability to enjoy the full use of their home and facilities with the fewest possible restrictions, and to insure the rights of other association members to enjoy the same privileges.

Questions, concerns, complaints and variance requests should be addressed to the Property Manager at Crofton Perdue Associates 585-248-3840 or info@Croftoninc.com.

The Architectural Standards are of primary importance and require a variance. A new variance request will be needed for repeated maintenance such as periodic deck staining.

PARKING

Licensed vehicles should be parked in a private driveway or garage. Visitor areas are designated to provide temporary parking. No parking is permitted at any time on Eaglesfield Way, Walpole Court, Wind Loft Circle and the adjacent access roads.

Additional temporary parking for a special event may be on the main roads.

Owners of vehicles parked in visitor parking areas for more than 72 hours continuously may be fined \$25 per day for the first occurrence. Subsequent violations will result in the vehicle being towed at the owner's expense.

Vehicles including, but are not limited to, boats, commercial vehicles, trailers and recreational vehicles cannot be parked in driveways or visitor parking areas. Unlicensed motor vehicles may be towed at the owner's expense

EXTERIOR AREAS AND DISPLAYS

Unit owners should not plant or prune anything in the mulched shrub and tree areas around the townhouses. The Association provides landscape maintenance service on a contracted schedule.

A total of three (3) items may be placed in the front garden bed. These may be landscape decor and/or potted plants. The size of any decorative item is limited to 2'x 2 ½'. Potted plants must be removed by October 31st.

Potted plants should not be placed on the front sidewalk for safety reasons. Potted plants may be used on decks and porches.

Storage of wood and other items is not permitted around the exterior of the units or under decks.

Trellises are not allowed in the front garden bed or on siding or bricks.

The American flag is the only flag permitted. It should be displayed on a flagpole placed in a bracket attached to the wooden column of the front porch.

Other décor such as wreaths should be displayed only on the front door.

Owners may not attach anything to the brick walls or the siding. Pre-existing hardware on these surfaces must not be used.

Holiday Decorations- Temporary holiday decorations may be displayed. They should be removed within two (2) weeks following the holiday.

Any damage to the exterior of a townhouse caused by the homeowner must be repaired by the homeowner to its original condition or the Association will make the repair at the homeowner's expense.

DECKS, DOORS AND AWNINGS

Decks, doors and awnings are the responsibility of the homeowner. However the maintenance, replacement and appearance of these items is regulated by the Architectural Standards.

GARAGE SALES- require a variance.

NOISE

Homeowners inside their home with the windows closed should not experience noise disturbance. Outdoor parties should end by 11 p.m.

LANDSCAPE

Owners may plant annuals and perennials in the front of their townhouse to add color and beautification to our community. These shall be cut back at the end of the growing season. If they are not removed the HOA will arrange to have them removed at the owner's expense. The planting should be reasonable and not overdone. The HOA will notify the owner to remove anything considered too much for the balance between complementing the community and being too excessive. Planting of anything larger, such as shrubs or large plants shall not be done until a variance is submitted with a picture of the plant for approval.

Potted plants may be placed in the front garden bed, also allowed on decks, on the front porch or hanging from an existing hook or on a shepherd's hook. No new hooks shall be installed without approval. Pots should not be placed on the front walk for safety reasons. Trellises are not allowed in the front garden bed or attached to the porch siding or brick, or chimneys. Solar lights are allowed to illuminate the sidewalk. The American flag is the only flag permitted to be displayed from a flagpole. American flag protocol is that the flag should be illuminated during evening dark hours.

OUTDOOR DRYING

Routine outdoor drying or airing of laundry and bedding is prohibited.

PETS & WILDLIFE

Town ordinance regarding all animals prevails.

Pets are only allowed outdoors on a leash and under the control of a responsible person. Pets should never be allowed to roam. Owners must immediately clean up after their animals when they are outside and properly dispose of waste materials.

Any damage caused by a pet will be billed to the owner.

Bird feeders and other food sources that may attract wildlife are not permitted.

SECURITY MOTION SENSOR LIGHTS

Security motion sensor lights are restricted to homes backing up to wooded areas. They require a variance.

SIGNS

One For Sale sign may be displayed in the window of the unit. One commercial Open House sign may be placed at the community entrance during an open house. No other signs of any kind are allowed anywhere.

TRASH STORAGE AND REMOVAL

Residents must store trash and trash containers in their garage.

Trash containers, recycling bins, and loose items should be placed near the street, but not in the gutter, no earlier than Monday evening. The empty containers must be retrieved and properly stored by Tuesday evening.

Garbage containers with lids are recommended to prevent wildlife attraction and littering. Extra precautions must be taken to secure containers and contents in windy conditions.

The homeowner is responsible for the disposal of any large item such as an appliance. Arrangements can be made with Suburban Disposal (585-352-3900). The homeowner is responsible for any costs or charge associated with this disposal service.

RENT OR LEASE

The owner who rents or leases their unit must file the Renter's Information Sheet which is available from the Property Manager. Failure to submit this completed form to the

Property Manager within 30 days of the rental agreement will result in an overdue fee of a \$25 per month until the form is filed.

FINING PROCEDURE

The homeowner may be notified of violations throughout the year.

The Architectural Committee makes a formal exterior inspection of each unit annually.

Homeowners receive an individualized letter based on these summer observations. Some of the violations require an approved variance to correct.

In order to assist the Board and Crofton Perdue in enforcing the HOA Rules and Regulations, the Board has voted to adopt the following fining procedure:

1st notice - the homeowner will be given written notice of violation and 30 days to correct

2nd notice - violations exceeding 30 days will receive a \$50 fine

3rd notice - violations exceeding 60 days will receive a \$100 fine

Violations exceeding 90 days will receive \$100 monthly fine until compliance is achieved.

The exception to this schedule will be violations which jeopardize the health of other homeowners, such as not cleaning up after a dog, or where a homeowner's vehicle is blocking other homeowners or contractors. Much less time will be given to correct these violations.

If deck staining needs to be done, the Board will expect a variance to be submitted and work to be completed between April and October.

Any fining for this repair will be suspended during the months of November through March.

Architectural Committee

The committee shall review all proposed improvements, additions, modification or alterations to any existing improvement or any proposed change in the use of a lot or any other portion of the property. The committee may also assist and advise the Board of Directors in enforcing the Declaration of the Association. Responsibilities and duties of the committee are defined in Article VII of the Declaration.

Nominating Committee

The committee shall be responsible for:

- Development and submission to the Board of written procedures covering regular, absentee, and proxy ballots.
- The nominating and voting process for the Woodsvew Homeowners' election of the Board of Directors at the Association's Annual Meeting. See By-Laws, Article IV.
- Conducting election including ratification, auditing, and counting of ballots.

WOODSVIEW ARCHITECTURAL STANDARDS

A variance request must be submitted and approved prior to commencing any work for each of the following.

AWNINGS

Awnings are only allowed over decks. They should be retractable and at the homeowner's expense. Any awning will require a variance request. All awnings will be mounted in the same fashion i.e., attached directly to the unit. Roof and or soffit mounting is not permitted.

Awnings must match the fabric, color and style of existing awnings in Woodsvie. Awnings should have green, white and or beige stripes. The Association can reasonably require replacement of the fabric by the homeowner if it is deemed too faded, torn, frayed, or in disrepair.

DECKS

Deck appearance and maintenance is the responsibility of the owner. The deck must be cleaned and stained as needed.

The color of the deck stain is strictly specified.

Semi-transparent stains

Olympic - Carmel or 716 Cedar Natural tone.
Behr – Red Cedar ST 152 or Cedar ST 146

Solid Stains

Olympic – Cedar
Behr – Red Cedar SC 152 or Cedar 146

The variance should include the color, manufacturer and distributor.

All deck repair or replacement must match existing size, material and design.

DOORS

All replacement doors must be like-for-like.

BASEMENT WALKOUT DOOR

The door must be white vinyl with a single half glass window above a solid lower panel. An additional full view storm door may be installed.

One story unit – An exact match to existing French doors, or a full view, white vinyl frame, sliding glass door that fits the existing opening.

Two story unit – A full view, white vinyl frame, sliding glass door that matches the existing door. No enlargement of door opening is allowed.

EMERGENCY WINDOW EGRESS

The egress must comply with Town of Perinton restrictions and have a permit. The owner is responsible for maintenance and safety precautions.

FRONT DOOR

The front door replacement must match the existing door structure, style and color. Doors should be steel-clad, 4 panel with 2 or 4 lights.

One story unit doors may be 2 panel with a half window.

The exterior of the front door is repainted as part of the HOA maintenance cycle. If an interim need arises, paint specifications are available from the Property Manager.

GARAGE DOOR

The garage door must be white, colonial pattern with no windows.

Wayne Dalton models 9605 and 9100, available from Felluca Overhead Door Inc., match the original garage door and are preferred.

Alternatives from other sources, having like-for-like style with square or rectangular patterns, will be considered.

STORM DOOR AND SCREEN

The door must be white vinyl with a full view clear glass panel. A 3” kick plate is acceptable.

A self-storing screen is permitted.

HVAC- HEAT VENTILATION AIR CONDITIONING

Installation or replacement of AC/Heating units requires a variance. The homeowner must stipulate that the installation will meet the manufacturer’s and installer’s requirements.

MAILBOX

A physician’s request and permission from the post office are required for installation of a personal mailbox.

OUTDOOR LIGHTS

The exterior light fixtures by the front door, the garage door and the deck door as well as house numbers were all purchased and installed by and are maintained by the HOA.

Homes backing up to wooded areas may submit a variance for a security motion sensor light to be installed at the owner’s expense. A white motion-activated light fixture made by Health/Zenith (Model #SL-5718-WH) is recommended.

Solar lights for safety are allowed along the sidewalk leading to the front door.

REAR FLOWER BED

Flowers may be planted behind the unit in a garden bed along the rear basement wall, or the wall adjacent to the deck on end units, not to exceed 2 feet wide and 10 feet long.

SATELLITE DISHES

A satellite dish must be mounted on wood. It may be affixed/attached to the wooden molding (fascia) beneath the edge of the roof about halfway down from the peak. It may be attached to vertical wood trim molding. It may also be placed on the deck.

The satellite dish must not be installed on the roof/shingles, aluminum siding or masonry/brick. It may not be located on the front of the house.

The BOD will comply with FCC Over the Air Reception Devices Rule provided the dish is located on the Owner's Lot.

The installer must be from a manufacturer's retail operation. No subcontractors are allowed.

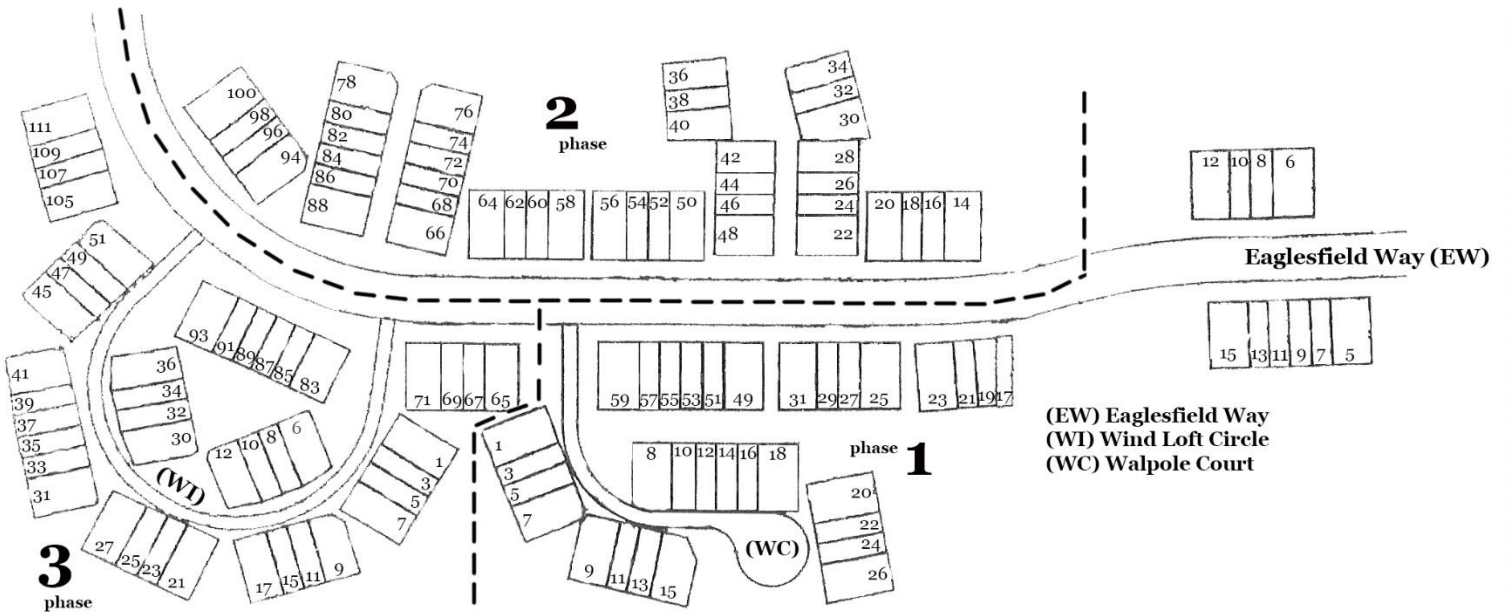

WINDOW REPAIR AND/OR REPLACEMENT

Window replacements should be similar in style to be considered a like-for-like replacement. All above grade windows must be casement style, crank out windows.
